

JP Brownlow Travel Co.

DISCOVERY MADE LUXURIOUS

Frequently Asked Questions

Can I see a line item listing of what my trip costs?

Your customized package will include full details about hotels, drivers, guided tours and special experiences. It will be delivered as a total investment. My country specific specialists have preferred pricing that is confidential and I don't see line-item pricing either. We are happy to revise the services needed and the supplier will re-quote the package with updated pricing.

Do you recommend travel insurance?

Because these customized itineraries are non-refundable, travel insurance is highly recommended. After your trip is approved, we will provide a travel insurance quote that protects your investment and covers both travel related costs and medical expenses.

Do you book Airbnb?

Because anyone can list their home or apartment on Airbnb without any verification of the true condition of the property or amenities offered, we do not book Airbnb or VRBO. But we do have our own network of verified homes and villas suppliers around the world where there will be no surprises at check-in.

Do you charge a fee?

Yes. I am compensated for my time in two ways: small commissions built into the pricing of some travel products and a travel planning fee that reflects my industry knowledge and access. These days there are no commissions on most airline tickets, many tours and concierge items like restaurant reservations. The planning fee gives me the freedom to choose the best air ticket or tour for you, no matter if a commission is involved. Planning fees are due at the beginning of the process and are non-refundable.
